MRS. A. R. BURNAM PEACEFULLY SLEEPS

Prominent and Beloved Woman
Dies At Her Home Here Late
Monday Evening

Mrs. Margaret Summers Burnam, widow of Judge A. R. Burnam, crossed over onto the other side to be with him and other loved ones, at 10:15 o'clock Monday night.

The heart of the entire community is grieved at the passing away of this noble woman. The end came peacefully as she sank to sleep. At her bedside were her children and others of the family who had ministered with every tenderness during the final hours. She had been gradually failing for months, and nothing that medical science could do seemed to avail.

Funeral services will be held at her home on West Main street Wednesday afternoon at 3 o'clock conducted by her pastor, Dr. Homer W. Carpenter, of the First Christian church.

Mrs. Burnam was born at Quincy, Illinois, December 18, 1849, and was the daughter of George Summers and Esther Alexander, who were formerly of Kentucky, but later moved to Illinois. At the age of 17, Mrs. Burnam came to Richmond as a student at Madison Female Institute and was a member of the graduating class of June 6, 1868. Her class mates included Mrs. Howard Neale, Mrs. Rea Phelps Collins, Miss Florence Hood, Mrs. Joe Collins, Mrs. Louis Francis, Mrs. Samuel Stone, Mrs. Dr. Bosley, of Danville, Mrs. Monroe Lee, of Paris, and Miss Sara Randall, of London—one of the most distinguished groups ever sent out from that institution, most of whom are still living.

She was married November 5, 1874, and survived her husband, Judge A. R. Burnam, less than a year. She leaves eight children, three daughters and five sons, all of whom were at her bedside when the summons came. Mrs. Warfield Bennett, Mrs. Jennings Greenleaf, Miss Madge Burnam, Dr. Curtis Burnam, of Baltimore, Attorney A. R. Burnam, Lucien Burnam, Paul Burnam, of Richmond, and George Burnam, of New Orleans.

Mrs. Burnam's entire married life was spent in Richmond, with the exception of eight years residence in Frankfort during Judge Burnam's term on the Court of Appeals bench.

Richmond has suffered a distinct loss in this death—a woman whose activities were ever linked with the worthwhile interests of the community.

She was a charter member of the Chautauqua, Literary and Scientific Circle which met each week in her home and which through her efforts for many years was a most successful organization.

The Cecilia Club, too, will treasure the fact that Mrs. Burnam was one of the organizers and earnest promoters of this, the oldest music club in the state. She was a member of the Woman's Club, and for years Regent of the local Boonesborough Chapter of D. A. R.

But above all, Mrs. Burnam's love for her church and her loyalty to its varied interests was a marked characteristic. And as a member of the choir through many years, the message she brought in song will long be remembered. Her life was a full one—a happy one, a task with the vision and the ideals that cleared the way were an inspiration to every life that touched hers. Surely her children "may rise up and call her blessed for her works shall praise her in the gates." And truly her friends who feel that her passing is like the "ceasing of exquisite music" with Tennyson in his "In Memoriam," may say:—

TOBACCO BLIGHT FEARED IN BOYLE

Father of Mrs. Hubert Willoughby
Takes Suspected Weed to
Expert For Examination

Dr. H. Garman and staff, Department of Entomology, Experiment Station at Lexington, are engaged with a diagnosis of a blight which was reported by W. E. Durham, tobacco grower of Boyle county, who came to Lexington bringing stalks that are typical of the affected tract. Mr. Durham is the father of Mrs. Hubert Willoughby, of Richmond.

The plants were first photographed and then placed under the microscope. Dr. Garman said that he expected to go to Boyle county Tuesday for an intimate study of conditions there. The affected area is on the Robert G. Evans farm, and the tract embraces 25 acres. Mr. Durham said he had heard of similar trouble on other farms in Boyle and Mercer counties. A dispatch from Harrodsburg Saturday stated that a disease called rust was widespread in the latter county.

After a preliminary examination Dr. Garman expressed the opinion that the blight in point might be caused from sunburn, brought about by a heavy shower which had thrown dust particles on the leaves. These particles can become anchors for rain drops and hot sunshine following acts through the drops the same as through a lens. This opinion was based on information from Mr. Durham that the blight had appeared following a hard rain, and because no insect had been incriminated at the time Dr. Garman spoke.

If it should be the work of an insect, Dr. Garman suspected the Jalyus Spinosa—a mosquito-like fly which punctures tobacco, and leaves spots of blight. Unfortunately, poison is no deterrent to this insect, and science has not found a remedy. Worms and some other remedies can be reached through arsenate of lead and Paris Green, and Bordeaux mixture kills fungi foes, but the puncture is not affected. One fortunate thing, however, is that the J. S. rarely occurs in destructive numbers over much territory. A plague of the insect usually can be traced to ground that "long has been in some growth that his a hospitable host."

What is called "rust" in tobacco may come from several diseases and pests, and until Dr. Garman has made an examination on the ground and has studied the "history" of the trouble and of the soil, he cannot be satisfied as to the trouble reported from the two counties. Generally, he said today, tobacco is thriving and few reports of insect and seasonal damage have been received at the station.

Mr. Durham has 35 acres in tobacco. The blight has appeared only in the large fields. The leaves are affected from the ground up, and he said that it seemed progressive, having been noticed for about ten days. Every leaf affected has been rendered worthless.

All of the tobacco was set from the same plant beds, and he says that there is practically no difference in the drainage or quality of the soil, yet only one patch has been attacked.

At offices of a Lexington seed firm Monday afternoon, it was stated that a blight called rust had appeared in several tobacco fields near Pine Grove on one of the Gay farms.

Gov. Morrow Notices Coolidge.

MORROW NOTIFIES GOV. COOLIDGE

Kentuckian Attacks Democratic
Administration—During Dis-
course In East

(By Associated Press)
Northampton, Mass., July 27.—"This nomination is tendered you as the spontaneous wish of your party," said Governor Edwin P. Morrow, of Kentucky, principal speaker at the ceremonies attending the notification here today of Governor Calvin Coolidge of his nomination as candidate of the republican party for vice president.

"The west called to the east," Gov. Morrow said. "North and south heard the call and the nation made answer." Gov. Morrow attacked the democratic national administration for what he termed its hesitation, blundering and stubbornness and called the League of Nations an attempt to bind the United States to the blood feuds of Europe.

"It is fitting," Mr. Morrow said, "that in Massachusetts, at this foundation of American inspiration, we solemnly determine that the heritage which made us free, independent and prosperous, shall not be bartered for a mass of unknown potage."

"You are called to serve your country in a time of your country's greatest need," Gov. Morrow continued. "At home great economic, industrial, social and governmental problems have too long in the past, and now continue to, press for and demand solution, and upon their proper solution depends the prosperity, security, commercial and financial welfare of the people."

"But, confronted at home with high duties and most serious responsibilities, the present national administration, entrusted with the great powers of government, has halted and hesitated and blundered, while it bent all its stubborn energies upon the task of fastening upon our country all of the ills of the world. The president and all those who have in the past bowed to his will, and whom he has covered with his mantle, committed to his policies, and whom he now seeks to place in his stand, have for more than a year, and now to strip us of our nationalism by clothing the nation in the multi-colored garments of internationalism; to take from us our sovereignty—and so, through a League of Nations, to bind us to the blood feuds of Europe, to make us the guarantors of shifting, vanishing boundary lines to the ends of the earth and to involve us in the greed and strife and confusion of the old world."

In such a time and with such issues confronting the country, Gov. Morrow asserted, Gov. Coolidge is confidently called upon to serve with a leader who "has spoken clearly, bravely and convincingly."

"His voice rings out now like a bugle through the land," he said. "We now await your message, convinced that it will be in full accord with the time-honored, time-proven policies of the republican party and that it will proclaim our party's principles of service to the nation and its people. When you have spoken, America will know that captain and mate have turned the old ship of state from her wanderings—home, to the needs of

the hour—home, to keep all and to have all that the past gave and which the future promises—home, to solve our problems here and to fulfill, as we have always done, our full share of world responsibility."

COOLIDGE ACCEPTS

(By Associated Press)
Northampton, Mass., July 27.—Rescue from the reactions of war was described as transcendent in the nation's need in the address of Governor Coolidge here today in accepting the republican nomination for vice president. "The chief task before us," he said, "is reposssession of the people of their government and their property." He found another source of gravest public concern to be the "reactionary tendency to substitute private will for public will." He deplored attempts to create class distinction, and asserted that extravagant standards of government expenditures must be eliminated. He urged a larger comprehension of independence of capital, management and labor and enlarged upon the power of organization of farmers. He asserted the League of Nations without reservations was deservedly opposed by republican senators and advised punishment of profiteers and the reduction of volume of money. He said adequate railroad transportation must be reestablished and aligned himself on the side of equal suffrage. The scene of the notification was the Allan Field recreation ground at Smith college. The platform accommodated the speakers and distinguished guests, while a great assemblage stood.

Danville Laundryman Dead

Danville, Ky., July 27.—Though he is of the Jewish faith and his funeral will be held Tuesday in a Jewish cemetery in Cincinnati, memorial services for Samuel Lyon, 66 years old, wealthy proprietor of the Danville Modern Steam Laundry, who died here Sunday at 4:30 o'clock following a heart attack, were scheduled to be held in the Methodist church here at 3 o'clock this afternoon.

Lyon, who came to Danville in 1868 from Clarksville, Tenn., amassed a fortune in the laundry business, and has left the bulk of it to Jewish hospitals in Cincinnati and Louisville. A sum of money was also left to the Danville and Boyle county hospital, it is understood. Lyon was a member of the Masonic order and was an Elk. He is survived by three cousins, Robert, Sam and Charles Straus, all of Cincinnati.

GIVES BIRTH TO 3 CALVES

Maysville, Ky., July 27.—A Jersey heifer, three years old, on the farm of Joseph Santee, near this city, gave birth to three splendid male calves, each weighing 60 pounds. They are perfect in shape and bid fair to live.

BANDITS GET \$10,000 IN CASH

Chicago, July 27.—Four men were shot, one probably fatally, when five bandits held up the paymaster of the Hart, Schaffner & Marx Clothing company, escaping with \$10,000 in cash. Shortly after the clothing company robbery two bandits held up Abe Nelson as he was entering the Peterson Machine Works on the west side and took \$15,000, the company's payroll. They escaped in an automobile.

TO STOP CATTLE RUNNING AT LARGE

Petition Filed From Newby Precinct, Probably To Be Followed By Others

A petition signed by a number of farmers in the vicinity of Newby, whose interests will be looked after by Attorney C. C. Wallace, has been filed in the county court asking for an election on the matter of permitting live stock to run at large upon the highways of that precinct. The petition will be formally taken up and the election held, it is reported, since the measure is of vital interest to many of the tenants as well as land owners of that vicinity.

It is claimed a movement of this character brought up last year failed, owing to a technicality, and the election was not called. It is the earnest desire that this one will be given more successful attention. There has been considerable property loss, it is asserted by some, as well as considerable loss to gardens and growing crops as a result of the miscellaneous manner in which some owners of live stock neglect their cattle. This, in a large measure, prompted the action.

This law is effective in the Kavanaugh and Red House precincts, and it is understood that petitions by others in various parts of Madison county will be forthcoming soon. Biggerstaff, Kingston, and Valley View precincts also enjoy this special law, which, it is predicted, will soon become effective throughout the entire county.

NEGOTIATIONS ON TO START MINES

(By Associated Press)
Springfield, Ill., July 27.—Operators of 20 small independent Illinois coal mines are negotiating with their shiftmen to meet the demands of \$2 per day increase, according to President Frank Farrington. Local operators received the news today with astonishment, asserting that alteration of the contract with the government would mean indictment and jail terms. Meanwhile coal production in the state is practically at a standstill.

PROMISES TO PAY ALL MATURE CLAIMS

(By Associated Press)
Boston, July 27.—Charles Head, of the National Securities Company, who promises a fifty percent increase for investors, today announced a willingness to pay all mature claims in full and return money to other investors, pending the auditing of his business. Thousands of persons were attracted by Ponzi's operations in the international exchange, which Ponzi asserts netted him millions of dollars within a few months.

Workmen, Helpless, See Lineman Electrocuted

Elizabethtown, Ky., July 27.—Arthur McMurtry, 25, a telephone company employe, was electrocuted on a pole here today, in the presence of helpless fellow workmen. He was a member of one of Hardin county's most prominent families.

DR. HEATH DIES IN STANFORD; BURIAL HERE

His host of friends here were shocked to learn of the death of Dr. M. C. Heath, which occurred at the home of his daughter, Mrs. A. H. Severance, at Stanford, Tuesday morning. Dr. Heath was about 73 years of age and for many years he had made his home here and was held highest esteem. His wife, who was Miss Mary Embry, a sister of the late J. J. Embry, preceded him to the Great Beyond many years ago. Mrs. Severance and a son, J. J. Heath, of Detroit, are the only surviving children. Dr. Heath had for many years been a faithful member of the Presbyterian church. Dr. Heath was a native of South Carolina, it is understood, but was raised in Georgia. He came to Richmond in young manhood to practice his profession.

The remains will be brought here, funeral services being held at 3 o'clock Thursday afternoon.

GOT HIS FOUR WISHES AT SAN FRANCISCO

Mr. James B. Parke, delegate from Madison county and the 8th district to the democratic national convention at San Francisco, has returned home, and says that he had the most delightful trip of his life. He declared that the four objects that he went to San Francisco hoping to see accomplished "went over" and he had a glorious time all round. He hoped to see Cox nominated, wanted to see Bryan snowed under, a strong candidate for vice president and Wilson's administration heartily endorsed, and he saw each and every one of the four accomplished. Mr. Parke says that the west is on fire for Cox, and that predictions are being made on all sides that he will carry California. Mr. Parke returned via Canada and the northern route, and is being given a warm welcome home by his many friends.

JOHN GRAYOT TO LEAD FIGHT IN KENTUCKY

John L. Grayot, Madisonville, commonwealth's attorney for 23 years, and for more than 20 years democratic leader in the Second congressional district, has been informally selected to manage the democratic presidential and senatorial campaigns in Kentucky this year, says the Courier-Journal.

Following a series of conferences held throughout the day, it was announced last night by friends of Mr. Grayot who are also United States Senator Beckham's closest political friends, that Mr. Grayot had been agreed on by all branches of the party in the state.

When the Democratic State Central and Executive Committee assemblies at democratic headquarters in The Seelbach this afternoon, Mr. Grayot will be elected to direct the state campaign unless plans agreed on last night are changed before the meeting.

Mr. Grayot's selection is regarded as a distinct victory for Senator Beckham. It also became known last night that Senator Stanley gave his undivided support to Mr. Grayot's friends when his name was suggested. At the same time, it is pointed out that Mr. Grayot has been identified with no party faction.

Senators Stanley and Beckham and Percy Haley and other democratic leaders approved Mr. Grayot's selection at a conference at The Seelbach last night.

Bubonic Plague In Texas

Austin, Texas, July 27.—Another case of bubonic plague was discovered at Beaumont, it was announced by state health officers here today.

CONCENTRATION OF GREAT SEA POWER

Atlantic and Pacific Fleets To Be
United, According To Present
Plan

(By Associated Press)
Washington, July 27.—The great concentration of sea power in the history of the American navy will result from the junction of the reorganized Atlantic and Pacific fleets off the Pacific coast next January under plans now being prepared by naval operations. The great naval spectacle probably will be staged in the vicinity of the Gulf of Panama.

Officials of the navy department say the proposed mobilization will in no sense result in "grand" maneuvers. No effort will be made to concentrate all of the nation's naval strength and only ships in regular commission with trained crews will participate. The exercises and drills will be simple and mainly of a competitive nature, including unofficial athletic competitions between representatives of the fleets and of individual ships. The main object of the mobilization will be to give officers and men an opportunity to compare notes and meet for a few weeks of good-natured rivalry.

Admiral Henry B. Wilson, commander-in-chief of the Atlantic fleet, will be senior officer of the combined force, with Admiral Hugh Rodman, chief of the Pacific fleet, second in command.

The maneuvers will be unique in many respects, chiefly in that they will afford the first actual mobilization of the bulk of the new American navy. Before the war the forces were always more or less scattered and a shortage of several types of vessels, particularly of destroyers, submarines, light cruisers, aerial forces and fleet auxiliaries made it impossible to concentrate a well rounded out fleet, although the major portion of the battleship force met each winter at Guantanamo, Cuba, for target practice and drills.

During the war the shortage in most types of small vessels, notably destroyers and submarines, was overcome, but the entire fleet was never mobilized, due to the use of practically all light craft in the war zone, the detail of cruisers to escort duty and the fact that a considerable portion of the battleship force was on duty abroad much of the time.

The January maneuvers will set a new mark in American naval progress. For the first time in the history of the new navy the battleship fleet will be supported by a reasonably adequate number of destroyers and other light craft. Submarines will be available in abundance, together with sufficient naval aircraft for all tactical purposes and a fully rounded out fleet of auxiliary vessels. The total number of vessels to participate will depend on the progress of recruiting, as many ships are in reserve now for lack of crews, but it is probable that Admiral Wilson will command at least 300 vessels of all types.

The most modern of dreadnaughts to participate in the maneuvers will be the great Tennessee. The last word in naval construction, this great floating fortress displaces 32,000 tons, carries 12 14-inch guns and is propelled by electric turbines. The Tennessee is attached to the Atlantic fleet. A sister ship, the California, probably will not be completed in time to join Admiral Rodman's force before the maneuvers.

Another Quake Today

Los Angeles, Cal., July 27.—Another sharp earthquake rattled windows and awakened prisoners in the county jail who howled to be released, here early today.

A FREAK KITTEN

Whitinsville, Mass., July 27.—A kitten with three eyes, two mouths and two noses was born to a black cat owned by Jacob H. Kooistra, of this city.

The kitten was one of three born to "Tab," the black cat. The kitten of unusual features lived only one day. The other two are living. Mr. Kooistra brought the kitten to his place of employment, where it was placed on exhibit to his fellow-workers.

The Harrodsburg fair begins Wednesday and a large number of Madison folks will motor over during the three days.

HOW COX CAN WIN

Election dopesters in the east have turned to the records showing the popular and electoral vote cast for president in 1916. There are 526 votes in the electoral college; 264 are necessary for nomination.

Four years ago Woodrow Wilson received 277 votes and Charles E. Hughes 254. Wilson won with a margin of 23 votes. The calculations, according to a Washington dispatch figure Governor Cox as a sure winner. This is how they do: The solid south, a total of 191 votes; New York 45; New Jersey 14; Illinois, 29; Indiana, 15; and Ohio, 24, a grand total of 218. According to the calculation, Cox has a lead of 45 votes.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell, of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Keeping Healthy in Broiling Sun

When head feels heavy or stomach is acid, get quick relief with Dr. Caldwell's Syrup Pepsin.

In spite of the lighter food we eat during summer months, it is the season of greatest dyspepsia and constipation. Many find it difficult to stand the heat. They exercise little and are always tired and half-sick.

It is good policy to take plenty of ripe fruit and vegetables, lots of cool, clear water and walks when the sun has set. But with all these precautions it is often impossible to regulate the daily elimination, with the result that thousands suffer from constipation, indigestion and similar ills.

There is nothing better for clogged-up bowels, for a stomach that refuses to work, than that well-known combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. It is America's standard relief for constipation. It has the great merit of being sure to act, yet acting mildly and without pain.

Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

Thousands of mothers give Dr. Caldwell's Syrup Pepsin to infants, and it is especially popular in hot weather. Mrs. E. C. Wilson, who lives in Hugo, Okla., where the heat in summer is intense, is the mother of eight children. All of them, and including herself, maintain their health in spite of enervating heat by frequent use of Dr. Caldwell's Syrup Pepsin. See what it will do for you.

Come To Our Majestic Range Demonstration

The representative of the manufacturer will be here at our store to help us show and explain to you the many Majestic features of superiority.

A Few of the Reasons Why the Majestic is the Range for You—

- 1—All-copper hot water reservoir; patented shifting lever controls water temperature.
- 2—Body of Charcoal Iron; resists rust and last three times longer than steel.
- 3—Lined with Asbestos Board, 1-4 inch thick; prevents loss of heat and saves fuel.
- 4—Air-tight oven; all parts riveted together, assures perfect baking.

- 5—Large warming closets; roomy and convenient, with drop doors.
- 6—No springs on oven door; it is supported with strong, durable stake and holds any weight placed on it.
- 7—Unbreakable malleable iron; permits riveting tight joints; saves fuel and repair expense.
- 8—First joint of pipe double weight; pipe collar double strength; front of flue at top and bottom of oven covered with indestructible malleable iron—strongest where others are weakest.
- 9—Open end ash pan; like shovel, removes ashes easily and cleanly. Ash cup catches ashes that otherwise fall on floor.
- 10—Doors and splasher back beautifully paneled in White or Blue Enamel, if desired.
- 11—Cooking top burnished dark blue, requires no polish.
- 12—Heavy nickel trimmings; smooth as glass; stay bright, easy to keep clean.

There Are Many Other Majestic Superiorities

No other range gives you such value for your money. See and examine the Majestic critically at our special Bargain Week Demonstration. The more you know about it, the more you will want it.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui, which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

TEACHERS URGED TO COME FORWARD

State Educational Board Appeals To All Eligible To Awake To Situation

The special examination for teachers on August 6 and 7, is attracting wide attention, not only among the teachers contemplating taking the work, but the educational board of the county and state as well, and much interest is being centered on this meeting. It will be held at the court house instead of at Eastern Normal, and indications point to a good attendance.

Communications received from the State Board are to the effect that every available teacher procurable, can be readily placed with pleasant surroundings, whether or not they are needed in this immediate vicinity. This would indicate vacancies in other parts of the state as well as this section. The state educators have advised the county superintendents to induce all who now have certificates for teaching, and who have not taken the agricultural examination, to do so; also those competent to teach and are not employed, to attend the examination, with the view of filling all ranks, if possible. Since this is the first special examination held, the interest of many eligibles who are not employed are said to be taking an interest, and the situation is expected to be cleared within a short time after the result of the examination is known. There will be special action taken on the work of grading the papers and letting the result be known at the earliest possible time. It is claimed there are many who have been qualified for some time, have not taken up this work, and this element is being appealed to by the members of the state educational board.

BIG SCHOOL ATTENDANCE

The attendance of the county schools (white) show an unusual attendance for the busy season of the year, according to reports received by County Superintendent B. F. Edwards, who has started the work of canvassing many of the institutions to investigate the start being made and the attendance generally. Similar reports were made from the colored schools of the county, which started one week in advance. The teachers are getting the work incident to the opening of the schools well under way.

GIRLS! MAKE A LEMON BLEACH

Lemons Whiten and Double Beauty of the Skin

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft, and rosy-white the skin becomes. Yes! It is harmless and never irritates. It

Loss of Appetite

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or eat only two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before the second meal is taken. Then if you eat more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation, as often is the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it. July

ONE WOMAN'S EXPERIENCE

Of Interest to Expectant Mothers

Goshen, Ind.—"I took Lydia E. Pinkham's Vegetable Compound with good results after I had suffered for some time with female trouble. Some years ago I had twin boys and took your Vegetable Compound before they came and before my four-year-old boy was born, and afterwards, and think it fine for such cases. I tell others what it did for me and you may publish my testimonial."—Mrs. Geo. A. Fos, 71 S. 9th St., Goshen, Indiana.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childrenless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong and this good old-fashioned root and herb remedy contains no poisons or harmful drugs.

a number of the affairs of the last meeting having been carried over. It is expected the semi-annual report of City Clerk Ed Blanton will be made, as well as others. Business in the city has been good according to report of various officials in a position to know. There are expected to be the usual complaints regarding special license relative to soft drinks, etc., there not having been a session thus far since the new law became effective that there were not many inquiries regarding this. It is also expected that there will be a report from Councilman C. B. Terrell to the effect that the material for the extension of street work will have arrived, since it is his intention to have it on hand to take up the work with the close of the paving and finish the streets as contemplated this fall.

FEW APPRECIATE CITY SCALES, SAYS MR. DYKES

There is much coal and wheat being hauled these days, according to Jesse Dykes, in charge of the city scales, who reports that business along this line is very good. Many purchasers of coal and sellers of wheat have the loads weighed on the city scales. However, according to the statement of Mr. Dykes, the scales are not appreciated as they should be. He stated that they were placed at the expense of the city for the benefit of residents and that while many used them frequently there were some who never patronized the scales, taking any weight they would be able to find at other scales.

COL. E. F. CLAY DEAD

Many relatives here have received news of the death at Paris of Colonel Ezekiel F. Clay, one of the most widely known breeders of thoroughbred horses in the United States. He was 70 years old. Colonel Clay was born on the old Clay homestead near Paris, December, 1841, and was the youngest child of Brutus J. and Amelia Field Clay. He was attending school at Harrisburg, Pa., when the Civil war broke out. He cast his lot with the Confederacy, enlisting with the First Kentucky Mounted Riflemen, entering the ranks as a private, was afterward chosen captain, rose to lieutenant colonel, then became a colonel, had command of his regiment and remained with his command until the close of the war.

He was a prisoner on Johnson's Island nine months. Previous to his imprisonment he had lost an eye in an engagement. In 1867 he began the breeding of thoroughbred cattle and continued in this business until 1875. Since then he has been prominently engaged in breeding of thoroughbred horses.

UNIFORMED PYTHIANS IN ENCAMPMENT

A Big Feature of Gathering of Colored Knights of State Here This Week

(J. W. Cobb, Reporter)

The colored Knights of Pythias began their 27th annual session Tuesday morning at 9:30, at the First Baptist church. The city is crowded with delegates from all parts of the state. Under the direction of Chancellor W. D. Miller, of Pride of Kentucky, No. 15, nothing is being left undone to make the meeting a grand and glorious one. Members and friends of the order are showing them the true hospitality that Richmond and Madison county are noted for. The Pythians and members of the Court are composed of men and women of training and ability. Some of the leading professional, business and fraternal men of the state are in attendance and the city has been turned over to them for a few days.

Rev. J. M. Mundy, G. C., of Henderson, is head of the Pythians. Mrs. T. C. Snowden, W. C., of Lexington, is head of the ladies department.

Gen. W. W. Wilson, of Frankfort, is commander of the Uniform Rank, which is camped on Big Hill avenue at Creech Field. There are three companies from Louisville, one from Bowling Green, two from Frankfort, one from Paducah, one ladies' drill team from Louisville, Company 1 from Richmond, and the Richmond Cadet team, one company of cadets from Paducah, one company from Bowling Green, one company from Henderson, one company from the Louisville School of Officers, and Camp Instructors. Daily guard mount is at 9 a. m.; dress parade at 6 o'clock. The grand military ball will be held at Princess Rink to-night with music by Montague's saxophone sextet.
